GENERAL INFORMATION

Your Telephone Number Is Important

Make it easy for people to reach you. Include your area code and telephone number on business stationery, statements and advertising. It helps parties call you faster.

Attachments to Telephones

In the interest of providing dependable, efficient and modern telephone service, the telephone company sets specifications for equipment which may be connected to its facilities. These specifications are required to insure that each part of the system is designed and maintained to work with every other part of the complex telephone network. Rules and regulations regarding the connection of customer-provided equipment to telephone company facilities are on file with the Iowa State Commerce Commission. Copies are available for review at the business office.

Rates and Regulations

Regulations and rules governing the furnishing of services by your Telephone Company are on file in your Business Office. A representative will be glad to assist you in obtaining information from them.

Annoying, Harassing and Threatening Calls

Annoying, harassing and threatening phone calls are punishable under state of Iowa or Federal law. If you receive such calls, hang up immediately. If they persist get in touch with your Telephone Business Office. Threatening calls should be reported immediately to the police.

Personal Directory

An attractively bound "personal directory" provides a handy place for keeping your personal list of frequently called local and out-of-town numbers. To get one free, just call your Business Office.

WARNING: emergency calls on party lines

The Iowa law relating to intentional obstruction of emergency telephone calls reads as follows: Section 1. For the purposes of this Act, the following terms have the meanings ascribed to them.

1. "Party line" means a subscriber's line telephone circuit, consisting of two or more main telephone stations connected therewith, each station with a distinctive ring or telephone number.

2. "Emergency" means a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential.

Section 2. Any person who shall intentionally refuse to relinquish immediately a telephone party line or

public pay telephone when informed that such line or telephone is needed for an emergency actually existing in Section one of this act, for use in calling a fire department or police department, or for medical aid or ambulance service, shall be fined not exceeding one hundred dollars or imprisoned in the county jail not exceeding thirty days.

Section 3. Any person who shall secure the use of a telephone party line or public pay telephone by falsely stating that such line or phone is needed for an emergency call shall be fined not exceeding one hundred dollars or be imprisoned in the county jail not exceeding thirty days.

TO CALL A PARTY ON YOUR LINE

Two-party customers dial the listed number then follow procedure below.
Eight-party customers dial the listed number—a high whistling tone will indicate the telephone called is on your line. Then dial the party code number shown on the number plate on your telephone and follow procedure below.

PROCEDURE—After dialing the number, hang up. Your bell and the bell of the called telephone will ring until the called telephone answers. When your telephone stops ringing, lift your receiver and begin your conversation. If no answer, lift your receiver for a moment and then replace it. This will stop the ringing and will clear the line for other calls.

AMES CIVIC INFORMATION

HISTORY—The village of Ames came into existence in 1864. That same year the Cedar Rapids and Missouri Railroad was extended to the new Story County settlement. This village was named after Oakes Ames, Massachusetts Congressman and railroad promoter, who had financial interest in the C.R. and Mo. R.R.

The presence of state and federal institutions has been a major factor in the growth of Ames. March 18, 1869 marked the formal opening of the "State Agricultural College and Model Farm". Now Iowa State University of Science and Technology (the name adopted by the 1959 Iowa General Assembly), has an enrollment of 18,000 students.

GOVERNMENT—Ames operates under a Mayor-Council form of government with a City Manager. With this type of city government the City Council sets the policy and the City Manager administers it. The Mayor is elected for a 2-year term. The Mayor presides at Council meetings and is official city host. He appoints the Chief of Police and citizen members of various municipal boards and commissions.

PLANNING—The seven City Planning Commission members are appointed by the Mayor for five-year terms and serve without salary. They employ, with the approval of the City Council, a professional staff. The Commission directs planning for the orderly growth and development of the city by recommending zoning for new areas of the city, attempting to keep non-conforming use to a minimum and recommending zoning patterns that encourage suitable use of the land.

The powers of the Commission are advisory and its recommendations may or may not be adopted by the Council. Decisions of the Council may be appealed to the Zoning Adjustment Board.

WATER—From the original well with a pump and elevated wooden water tank, the Water Department has grown to a plant capable of producing 6,000,000 gallons of treated water a day. Equipment includes ten gravel-packed wells, a 1,000,000 gallon capacity water tower, a new well house and meter pit, a high service pumping station and a new clarifier basin. The University has its own water supply and plant.

MUNICIPAL LIGHT AND POWER PLANT—Ames has had its own municipal light and power plant since 1896. It has been expanded several times to meet the increasing demands of a growing city. The last major expansion occurred in 1948 when revenue bonds in the amount of \$2,650,000 were issued. New generation capacity was added in 1958 and in 1968 a new \$8 million addition was added to increase the capacity from 27 megawatts to 60 megawatts of power.

MARY GREELEY HOSPITAL—A donation from Captain W. M. Greeley in memory of his wife, founded the Mary Greeley Memorial Hospital in 1916. The first addition was built in 1937; the second addition in 1961 brought bed capacity to 160. Another addition completed in 1971 will increase the capacity for acute medical, surgical, coronary and mental health patients.

AIRPORT—The Ames Municipal Airport is located in the south part of the city west of Highway 69. A \$270,600 improvement program in 1963 included increasing the length of the main runway to 3,500 feet and its width to 100 feet which accommodates planes as large as four-engine DC-6's.

FINANCIAL—Ames is served by three banks. Bank deposits as of April 30, 1971, amounted to \$53,021,766. There are two savings and loan associations.

COMMUNICATIONS—Ames is served by one local newspaper, one television station, two AM radio stations and four FM radio stations.

PUBLIC SCHOOLS—The school plant is comprised of seventeen buildings, with a present total new replacement value of \$10,344,348.

IOWA STATE UNIVERSITY OF SCIENCE AND TECHNOLOGY—Colleges within the University are Agriculture, Engineering, Graduate, Home Economics, Sciences and Humanities and Veterinary Medicine.

A federal land grant institution, Iowa State has a three-fold function:

1. Resident instruction on both the undergraduate and graduate levels.
2. Extensive programs of research.
3. Extension service in agriculture, engineering and home economics.

The research facilities of the University include the Agriculture and Engineering Experiment Stations, the Institute for Atomic Research, the Industrial Science and Veterinary Medical Research Institutes and the Statistical Laboratory.

The United States Atomic Energy Commission has a major laboratory for basic research on campus, operated as an integral part of the Institute for Atomic Research.

University enrollment for the fall quarter of 1970 was 19,600, the University Staff was 5,199.

University land in Ames and through the state totals 7,623 acres with 986 acres in the main campus and recreation areas.

IOWA STATE HIGHWAY COMMISSION—The Iowa State Highway Commission employs 4,000 engineers, administrative assistants and maintenance men in all of its departments. About 1,050 are located in Ames.

NATIONAL ANIMAL DISEASE LABORATORY—The principal work of the National Animal Disease Laboratory, a facility of the U. S. Department of Agriculture located in Ames, Iowa, is research on the principal diseases of livestock that occur in the United States. About 20 percent of the facilities, however, are used to provide laboratory diagnostic services for some of the Department's disease-control field programs and for the regulation and control of biological products made and sold in inter-state trade by private commercial companies. At present the staff consists of 125 professional and scientific workers and 320 nonprofessional employees, a total of 445 persons.

The laboratory was constructed at a cost of \$16,000,000 and the annual operating budget is in excess of \$5,000,000.

When you need

A PRODUCT OR SERVICE

If it's furniture just turn to "Furniture" in the "F" section. Look over the list of furniture dealers and then pick the dealer whose message, location, brand names, or other features appeal to you.

Whether you need a plumber or a florist, a TV repairman, a moving van, or any other product or service look under the appropriate heading... and you'll find them fast in the Yellow Pages.

When you want to

FIND A FIRM WHOSE FULL NAME OR ADDRESS YOU'VE FORGOTTEN

If, for example, you have forgotten the name of a real estate company you want to call but remember the address, check the listings under "Real Estate" until you come to the address and you'll recognize your firm.

Perhaps you can remember only part of the name... that "Suburban" is in the firm's name. Look through "Real Estate" listings and you'll, no doubt, quickly recognize the full name of the company.

When you want to

FIND A "BRAND NAME" PRODUCT OR SERVICE

If you want to know who handles "Britescreen Television Sets" just turn to "Television Dealers" in the Yellow Pages and look for "Britescreen Television" in alphabetical order, with Brite-screen dealers listed under it.

When you want to

FIND FIRMS OFFERING SPECIAL SERVICES

Need a tow truck in the middle of the night? Or a plumber or furnace repairman? You can find them fast in the Yellow Pages.

You can find out which restaurants are open on Sunday, where to get an ambulance or chartered airplane, rent a post hole digger or a wheel chair. A look in the Yellow Pages can answer a lot of questions, save a lot of time and trouble.

EVEN WHEN YOU KNOW THE NAME YELLOW PAGES CAN HELP

Let's say, for example, that you want to call the National Hardware Store. You can find "National" under "Hardware" in the Yellow Pages faster than going through the "N" pages in the regular white alphabetical pages.

LET THE YELLOW PAGES INDEX HELP YOU FIND WHAT YOU WANT

An index of headings in the Yellow Pages begins on the next page. If you are in doubt about the correct heading where you will find the company to provide the product or service you want, turn to the INDEX. It includes cross references to help you find most everything you want, quickly.

STEAMATIC**CARPET CLEANING SERVICE****"CLEAN ACROSS THE NATION"****COMMERCIAL - RESIDENTIAL**

STEAMATIC actually extracts (by wet-steam action) deep down dirt and soil to
the fibre base. No residue is left to damage carpets like other cleaning methods.

GENTLE No brushes or scrubbing, shampoos, soaps or detergents are involved,
so there can be no pile distortion. Carpet fibre is restored to like-new resilience

ECONOMICAL With STEAMATIC, carpet cleaning frequency is greatly reduced.

And with soil and dirt removed, fibre life is greatly prolonged for years of
added carpet value.
